

Giampaolo Betta

Giampaolo Betta holds a master degree in mechanical engineering and a PhD in Food Science and Technology.

He is professor in Food Science and Technology at the Engineering Faculty of the University of Parma and he is researcher of the Tecnopolo Siteia.Parma.

He offers design audits for in-use and new equipment with a focus on hygienic design, microbiological safety and cleanability.

He is a conference lecturer and author of scientific literature on food processing published in recognized journals.

Giampaolo Betta organises seminars and offers training in basic and advanced hygienic design. These courses are tailored for food producers, equipment manufacturers and other stakeholders and are based on the European and US Legislation, the standards EN 1672-2 and EN ISO 14159, the EHEDG Guidelines and the other relevant international documents.

He is a member of the EHEDG Subgroups 'Training & Education' and 'Test Methods' and is the Chairman of the Italian Regional Section of EHEDG.
